

CS272 Final Project Milestone

Fall 2023

December 2023

Acknowledgement

1. If you choose to choose from the suggested topics,
 - you are required to give a 5 min presentation for milestone at 2023/12/19 **in class**
 - (team LEADER) please submit your slides in [Gradescope](#) with [PDF format](#)
 - Gradescope slides deadline is the day before milestone presentation: **2023/12/18/23:59:59. No late days.**
2. If you choose to propose your personal project, you are not required to give a milestone presentation.
3. **Plagiarism or cheat is strictly prohibited.**

Milestone Instruction

Your presentation should involve:

- describe your expected goals for this project
- define and describe your designed task/functions
- present your technical roadmap for your project
- present your milestone's progress (maybe your progress bar/what problem do you encounter?/how to solve it?/what's your next step?/...)
- clarify each team member's contribution and workload

Other requirements

- Presentation duration: 5 min
- One student can lead the presentation but each team member should be involved in presentations for his/her part
- Upload your slides in Gradescope before the deadline
- The milestone presentation accounts for 15% in the final project (which is the same for the proposal presentation). Please attend the presentation.
- Note that the deadline for the final project will be around Week 16. Please make a reasonable schedule for your project.
